Herald — Fixed

Field	Value
Revision	24
Created	2026-05-20
Last modified	2026-06-02
Status	active
Status summary	**r24: §11.4.19 atomic Issues→Fixed migration of HRD-115 (Wave 7 Slack channel adapter — live round-trip proven on a real workspace: send + Socket-Mode inbound + Tier-1 reply-delivery + threading; participant-handle resolution fixed 7e7a04e; evidence docs/qa/HRD-115-LIVE-roundtrip-2026-06-02T08-43-55Z/) + HRD-081 (podman-compose --wait/Status()-ps-parse fix landed upstream in digital.vasic.containers 222fb90, Herald pointer bumped af48c97, live-proven podman-compose 1.5.0/podman 5.8.2 per §11.4.76 extend-upstream). Both inserted as the top two Recently-fixed rows. HRD-159 (cross-channel empty-CC-reply delivery gap) STAYS OPEN in Issues.md — the seeding fix (f0c7858, bootstrapPrompt standing-contract + deterministic test) landed but real-Claude-honors-contract live confirmation is still pending. Prior r23: §11.4.19 received HRD-117 (Wave 7 T8 spec-doc) from Issues.md — closed because its deliverable is verified present in active spec V4 (§11.0/§32.2/§43; doc-only, product code already Fixed under HRD-116/118/119/120/121). Inserted after the HRD-116 Wave-7 cluster row. Prior r22: §11.4.90 + §11.4.19 atomic Obsolete→Fixed migration — received the 4 Obsolete-status HRDs from Issues.md: HRD-143 (TestSubscribe_LiveBotAPI legacy attended live test, superseded by §11.4.98 + HRD-140's MTProto TestMTProto_Subscribe_AutonomousRoundTrip), HRD-144 (tests/test_wave6_live_loop.sh legacy closed-loop script, superseded by §11.4.98 + HRD-141's TestMTProto_Wave6_AutonomousClosedLoop), HRD-145 (qaherald lifecycle --manual interactive mode, superseded by §11.4.98 + HRD-142's TestMTProto_Wave65_LifecycleAutonomous), HRD-015 (Go-scaffold inheritance-gate I8 invariants, superseded-by-design-change — the I8 gate slot was repurposed for the §107 covenant I8a/b/c). Each carries its full **Obsolete-Details:** line (Since / Reason / Superseding-item / triple-check evidence per §11.4.90); each superseding artefact was re-verified present on disk before migration (the three HRD-140/141/142 MTProto tests under qaherald/internal/lifecycle/, the I8a/b/c checks at tests/

Field	Value
	<code>test_constitution_inheritance.sh:133-137</code>). Commit column reads "Obsolete (no code change)" — these are doc-status migrations, not feature closures. Prior **r21: added two participant-attribution columns — Created-By + Assigned-To — to the Fixed pipe-table, placed immediately AFTER the Criticality column (before Title) so the metadata stays grouped and the long Title stays at the right edge (per docs/design/PARTICIPANT_ATTRIBUTION.md §4c). Table widens 7→9 columns; header + separator + every data row updated programmatically (/tmp/add_attribution_cols.py) so every row's`
Issues	see Issues.md — r47 (Issues.md) records this r22 §11.4.90+§11.4.19 atomic Obsolete→Fixed migration of the 4 Obsolete HRDs (HRD-143/144/145 + HRD-015); 10 items remain open in Issues.md.
Issues summary	8 still open in Issues.md: HRD-008 (operator quickstart-compose validation); HRD-159 (cross-channel empty-CC-reply delivery gap — seeding fix f0c7858 landed, awaiting real-Claude live confirmation); HRD-131, HRD-150, HRD-155, HRD-156, HRD-157, HRD-158 (ATMOSphere/SSoT externally gated). HRD-115 (Slack adapter) + HRD-081 (podman-compose fix) migrated to Fixed here per §11.4.19 r24. The 4 Obsolete HRDs (HRD-143/144/145 + HRD-015) migrated here per §11.4.90.
Fixed	HRD-001..HRD-007, HRD-009, HRD-009b, HRD-010, HRD-011, HRD-012, HRD-013, HRD-014, HRD-015, HRD-016, HRD-017, HRD-018, HRD-019..HRD-025, HRD-026, HRD-027, HRD-028, HRD-029..HRD-056, HRD-080, HRD-081, HRD-085..HRD-089, HRD-090, HRD-092, HRD-093, HRD-094, HRD-095, HRD-096, HRD-097, HRD-098, HRD-099, HRD-100, HRD-110, HRD-111, HRD-112, HRD-113, HRD-114, HRD-115, HRD-116, HRD-118, HRD-119, HRD-120, HRD-121, HRD-122, HRD-123, HRD-124, HRD-125, HRD-126, HRD-127, HRD-128, HRD-129, HRD-130, HRD-132, HRD-133, HRD-134, HRD-135, HRD-136, HRD-137, HRD-138, HRD-139, HRD-140, HRD-141, HRD-142, HRD-143, HRD-144, HRD-145, HRD-146, HRD-147, HRD-148, HRD-149, HRD-151, HRD-152, HRD-153, HRD-154
Fixed summary	v1.0.0 closure-migration (r19 — 51 HRDs: flavor constitution bindings HRD-019..025, §43 command catalogue HRD-029..056, Batch-D pgxTaskRepository ops HRD-085..089, Wave 7 multi-channel HRD-116/118/119/120/121, ATMOSphere workable-items features HRD-148/149/151/152/153/154 — each re-verified against committed code + passing tests + e2e invariant + docs/qa before migration).
